\*Extended hours to accommodate your project or emergency needs

### 3. LONG BEACH FACILITY (PLANT) RCRA TSD

- Years in operation under current ownership: 65 years
- Approximate size of the TSD: 43,600 square feet
- Previous company names: None
- Description of any environmental problems: None
- Permitted Capacity: Approximately 16,000,000 gallons of bulk liquid per year
- Drum Capacity: Throughput of 656 drums per day
- Ownership of Land: Crosby & Overton, Inc.
- Surrounding Neighborhood: C & O is located in a heavy industrial area of Long Beach with no residential use in the immediate area.

- **Climatic Conditions:** The site is located in an area with moderate temperatures year round with no opportunity of coastal flooding.
- **Site Topography:** The site is approximately 10 ft. above sea level. The entire facility is surrounded by an 8 ft. security fence. Access control is by 3-30 ft. gates which remain closed except when waste transporters are entering or leaving the facility. The site is completely surrounded by berms which are a minimum of 10 inches high. The facility has a minimum of 8 inches of concrete beneath the entire facility and has a rainwater collection system.
- SIC code – 8999  
NAICS – 562211

#### A. ACCEPTABLE WASTE STREAMS

##### 1. Bulk Liquids for On-Site Treatment

- Non Hazardous (waters w/ low percentage of hydrocarbons)
- Non RCRA (oily waters, clarifier waste)
- RCRA – D001 & D018 (oil waters w/ gasoline)

##### 2. Drummed Liquids and Solids \*

- Non Hazardous
- Non RCRA & RCRA (see Table 1 for state codes)
- Lab Packs
- Household Hazardous Waste

*\*Roll-offs and Tri-walls acceptable for some waste streams*

#### B. UNACCEPTABLE WASTE STREAMS

##### 1. Bulk Liquids

- Waters with high concentrations of soluble contaminants
- RCRA codes other than D001 & D018 (F-coded, U or P listed, characteristic code)
- Waste w/ PCB's
- Waste w/ Cyanides >1.20 mg/L
- Waste w/ Sulfides >10 ppm (*high Sulfides may result in additional charges*)
- Water w/ high metals

## 2. Bulk Solids

- Because of space restrictions, C & O does not typically manage roll-off box quantities of solid waste.

## 3. Drummed Liquids & Solids

- Radioactive
- Biological
- Explosive
- PCB

## C. TREATMENT PROCESS

Waste water containing hydrocarbons and suspended solids are physically separated from the aqueous phase through filtration and centrifugation. The hydrocarbons are sent off for either fuels blending or recycling depending on the quality of the material. Solids which are not suspended are removed through gravity separation and sent to Landfill. Emulsified hydrocarbons are separated from the aqueous phase through chemical treatment and the remaining trace organics are removed through our carbon adsorption system.

## D. DISCHARGE LIMITS

Crosby & Overton discharges treated waste water to a POTW (Publicly Owned Treatment Works) under permit from Sanitation Districts of Los Angeles County. Prior to discharge, each batch of waste water is analyzed by C & O's State Certified Laboratory to ensure compliance with our strict effluent discharge limitations.

## E. DISPOSAL FACILITIES USED BY CROSBY & OVERTON

During the course of the waste treatment process at Crosby & Overton both hazardous and non-hazardous waste by-products are generated. Crosby & Overton utilizes only nationally recognized and permitted waste management companies for the disposal of these wastes. Whenever possible, Crosby & Overton will recycle the waste by-products, if recycling is not possible then the waste is incinerated. If incineration is not practicable, then the waste is landfilled.

Periodic audits are performed on all of the aforementioned facilities to ascertain overall compliance with applicable Federal, State and local regulations. These audits are also used to ensure waste is handled and disposed of in accordance with Crosby & Overton's instructions.

## **F. DRUM STORAGE**

The number of hazardous waste drums the facility is permitted to store is 656. The drums are segregated and contained by hazard class in individual drum storage cells.

## **G. TANK STORAGE**

Process and storage tanks are constructed of steel with epoxy coating. They are used to store Non Hazardous, Non RCRA and RCRA water. All tanks are vented to a permitted vapor recovery system. The tanks are visually inspected daily and undergo an annual physical inspection and professional engineer certification.

## **H. LABORATORY SERVICES**

Crosby & Overton Inc. operates a state certified laboratory located on site which supports the facility needs. The laboratory runs the following test for waste certification/disposal:

- Organics (liquids/solids) EPA 601/602, EPA 624, EPA 8021
- Title 22 CAM metals EPA 6010
- Colorimetric Test (sulfides, cyanides, COD)
- Ignitability EPA 1010
- pH
- Free Cyanides
- Metals (in water) EPA 6010B, EPA 200.7

Laboratory services are wastes handled at facility only. Crosby & Overton does not analyze waste for disposal at other facilities.

## **I. SAFETY RECORD**

C & O is proud of our safety record. There has been 1 lost time injury in the past three years. Currently, Crosby & Overton's experience modifier (ExMod) is less than 1.0. An ExMod less than one means that C & O has less lost time than the average for the industry.

- 2013 – 1 lost time accident
- 2014 – 0 lost time accident
- 2015 – 0 lost time accident

## **J. CIVIL ACTIONS**

No pending

## **K. INSURANCE CERTIFICATES**

The following sample insurance certificates are enclosed: General Liability, Contractors Pollution Liability, Professional Services, Property and Workers Compensation.

## **L. LICENSES AND PERMITS**

- California Environmental Protection Agency (CAL EPA), Department of Toxic Substances Control (DTSC), Region 4 – Long Beach Hazardous Waste Facility Permit for RCRA and Non-RCRA Waste EPA ID Number: CAD 028409019 issued August 22, 2014
- South Coast Air Quality Management District  
Permit Number D70568 (waste water separation)  
Permit Number D21634 (ICE diesel less than 50HP)  
Permit Number D70386 (dust collector cartridge type)  
Permit Number D70387 (activated carbon absorber)  
Permit Number D70388 (activated carbon absorber)  
Permit Number D70389 (activated carbon absorber)  
Permit Number D70390 (activated carbon absorber)
- State of California “A General Engineering” License 450744
- State of California Department of Health Services  
Crosby & Overton Analytical Laboratory Certificate #1568
- Los Angeles County Sanitation District  
Industrial Waste Discharge Permit 1317-R-2
- City of Long Beach  
Business License BU88024970  
Hazardous Material Disclosure Permit #HC00001447  
Plant 1 – HC00001446

## **M. CERTIFICATE S OF TREATMENT / RECEIPT**

The completed hazardous waste manifest, signed by the facility, serves as the certificate of treatment and receipt. However, if additional documentation is necessary, contact the Crosby & Overton Customer Service Department.

## **4. HAYWARD TRANSFER FACILITY**

Crosby & Overton operate an exempt 10 day transfer facility in Hayward California. Waste brought to this is transferred to the Long Beach Facility for further processing.

FINANCIAL RESPONSIBILITY REVIEW FINDINGS – CROSBY & OVERTON,  
INCORPORATED, 1630 WEST 17TH STREET, LONG BEACH, CALIFORNIA 90813,  
ENVIRONMENTAL PROTECTION AGENCY IDENTIFICATION NUMBER  
CAD028409019

Dear Mr. Shloub:

On July 22, 2016, the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC), conducted a financial responsibility review of Crosby & Overton, Incorporated at 1630 West 17th Street, Long Beach, CA 90813. The enclosed review describes the findings of the review.

Because no violations were discovered during the review, no written response to this letter is required. DTSC appreciates your efforts to comply with the financial assurance regulations.

All pertinent information derived from the inspection, including financial assurance documents are included as attachments to the review.

This report will become a public document; you may request that any trade secret or facility security information be withheld from public disclosure. (See Health and Safety Code section 25173)

If you wish to assert the trade secret privilege after you have reviewed the report, please provide specific answers to each of the following questions for each item:

- To what extent is there knowledge of the information conveyed by the photograph/document outside of your business?

Mr. Shloub  
July 22, 2016  
Page 2

- To what extent is there knowledge of the information conveyed by the photograph/document, by employees and others in your business?
- To what extent have measures been taken to guard the secrecy of the information?
- Is the information valuable to competitors? If so, why?
- Has there been substantial monetary expenditure in the development of the information?
- Could the information be easily and properly acquired or duplicated by others?

DTSC will review your response to these questions to determine if the information should be treated as trade secret and will notify you of its decision.

If you have any questions regarding this letter, please contact Mr. Robert Lira (714) 816-1987 or Ms. Karyn Chung at (916) 255-3837.

Sincerely,

Jenny Aievoli, Chief  
Financial Assurance Unit  
Hazardous Waste Management Program

RE: Environmental Protection Agency Region 9 Determination of Acceptability  
under the CERCLA Off-Site Rule

In response to your request for approval to receive CERCLA waste at your facility, this letter serves to inform you that the U.S. Environmental Protection Agency (EPA), Region 9 has made an affirmative determination regarding the acceptability status of Crosby & Overton (CAD028409019) pursuant to the CERCLA Off-Site Rule, 40 CFR. §300.440. As of the date of this letter, Crosby & Overton may accept CERCLA waste generated as a result of a CERCLA remedial or removal action.

On September 16, 1993, EPA amended the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR Part 300, by adding Section 300.440, now known as the Off-Site Rule ("Rule"). The Rule codifies the requirements contained in Section 121(d)(3) of CERCLA, 42 U.S.C. §9621 (d)(3), and incorporates many provisions of EPA's former Off-Site Policy. The Rule established criteria and procedures for determining whether facilities are acceptable for the receipt of CERCLA waste. A copy of the Rule as published in the Federal Register, is enclosed for your reference (58 Fed. Reg. 49200 - 49218, September 23, 1993).

The Rule requires that prior to a facility's initial receipt of CERCLA waste, EPA must determine that there are no relevant violations or relevant releases at the facility. Should any new information affecting this determination be obtained in the future, EPA reserves the right to re-evaluate the acceptability of Crosby and Overton to receive CERCLA waste in accordance with the Rule.

If you have any questions concerning this matter, please contact Kandice Bellamy, Region 9's CERCLA Off-Site Rule Coordinator, at (415) 744-2091.

Sincerely,

Rick Vail, Chief  
State Programs & Compliance Branch

UNITED STATES OF AMERICA  
DEPARTMENT OF TRANSPORTATION  
PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION

**HAZARDOUS MATERIALS  
CERTIFICATE OF REGISTRATION  
FOR REGISTRATION YEAR(S) 2014-2017**

**Registrant:** CROSBY & OVERTON INC  
Attn: MICHAEL SHLOUB  
1610 WEST 17TH STREET  
LONG BEACH, CA 90813

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of 49 U.S.C. 5108. It is unlawful to alter or falsify this document.

**Reg. No:** 101614 550 013WY

**Issued:** 10/16/2014

**Expires:** 06/30/2017

**HM Company ID:** 001142

**Record Keeping Requirements for the Registration Program**

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with PHMSA; and
- (2) This Certificate of Registration

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U. S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, PHH-52, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590, telephone (202) 366-4109.

**Equipment Location:** 1610-30 W 17TH ST, LONG BEACH, CA 90813-1295

**Equipment Description :**

Stationary Vacuum Tank Truck Trailer, Waste paint, 4,500 gallons capacity, 5'-0" diameter, 35'-0" length.

**Conditions :**

1. Operation of this equipment shall be conducted in accordance with all data and specifications submitted with the application under which this permit is issued unless otherwise noted below.
2. This equipment shall be properly maintained and kept in good operating condition at all times.
3. The operator shall use this equipment exclusively for storing waste paint allowed by the RCRA Hazardous Waste Permit issued by the California Department of Toxic Substances Control. No chlorinated hydrocarbons shall be stored in this equipment.
4. The tank throughput shall not exceed 15,000 gallons per calendar month. Shipping records shall be used to monitor throughput.
5. The volatile organic compound (VOC) concentration in the tank vapor headspace shall be measured once each calendar month. The VOC concentration shall be measured using a flame ionization detector (FID), photo-ionization detector (PID), or other SCAQMD approved organic vapor analyzer calibrated in parts per million (ppmv) as hexane. (if other calibrating agent is used it shall be correlated to and expressed as hexane). The analyzer shall meet EPA Method 21 requirements. Analyzer calibration shall be performed prior to each monitoring event.
6. The VOC concentration in the tank vapor headspace shall not exceed 25,000 ppmv, as hexane.
7. The operator shall maintain records, in a manner approved by the SCAQMD, for:
  - A. Materials stored
  - B. Throughput
  - C. Tank vapor headspace VOC measurements

The operator shall keep the records for a period of at least two (2) years and make the records available to the SCAQMD upon request.

## PERMIT TO OPERATE

### NOTICE

In accordance with Rule 206, this Permit to Operate or copy shall be posted on or within 8 meters of the equipment.

This permit does not authorize the emission of air contaminants in excess of those allowed by Division 26 of the Health and Safety Code of the State of California or the applicable Rules and Regulations of the South Coast Air Quality Management District (SCAQMD). This permit cannot be considered as permission to violate existing laws, ordinances, regulations or statutes of other government agencies.

**Equipment Location:** 1610-30 W 17TH ST, LONG BEACH, CA 90813-1295

**Equipment Description :**

Air Pollution Control System, consisting of:

Carbon Adsorbers, two (2) activated carbon vessels connected in series, each containing a minimum of 180 pounds granular activated carbon, passively venting a stationary vacuum truck trailer.

**Conditions :**

1. Operation of this equipment shall be conducted in accordance with all data and specifications submitted with the application under which this permit is issued unless otherwise noted below.
2. This equipment shall be properly maintained and kept in good operating condition at all times.
3. The operator shall only use this equipment with the Stationary Vacuum Tank Truck Trailer.
4. Volatile organic compound (VOC) concentration shall be measured at the outlet of each carbon adsorber once each calendar month. The VOC concentrations shall be measured using a flame ionization detector (FID), photo-ionization detector (PID), or other SCAQMD-approved organic vapor analyzer calibrated in parts per million (ppmv) as hexane. (If other calibrating agent is used it shall be correlated to and expressed as hexane). The analyzer shall meet EPA method 21 requirements. Analyzer calibration shall be performed prior to each monitoring event.
5. The activated carbon used in both carbon adsorbers shall have a butane activity not less than 23.5 as measured by ASTM Method D5742.
6. Whenever the VOC concentration, measured as hexane, exceeds 500 ppmv at the outlet of the primary carbon adsorber or 50 ppmv at the outlet of the secondary carbon adsorber, the activated carbon shall be replaced as follows:
  - A. The primary adsorber shall be replaced with either an adsorber containing fresh granular activated carbon or the secondary activated carbon adsorber, and
  - B. The secondary adsorber shall be replaced with an adsorber containing fresh granular activated carbon.

**ORIGINAL**

PERMIT TO CONSTRUCT/OPERATE

7. The granular activated carbon in each carbon adsorber shall be replaced at least every three (3) years.
8. The spent granular activated carbon shall be stored in vapor tight containers and shall be disposed of at an approved hazardous waste site or a licensed recycler.
9. All records of carbon adsorber monitoring, carbon replacement, operator inspection, maintenance, and repair shall be maintained at the facility for a period of three (3) years and made available to the SCAQMD staff upon request.

NOTICE

In accordance with Rule 206, this Permit to Operate or copy shall be posted on or within 8 meters of the equipment.

STATE WATER RESOURCES CONTROL BOARD  
REGIONAL WATER QUALITY CONTROL BOARDS

CALIFORNIA STATE

ENVIRONMENTAL LABORATORY ACCREDITATION PROGRAM

**CERTIFICATE OF ENVIRONMENTAL ACCREDITATION**

Is hereby granted to

**Crosby & Overton Analytical Laboratory**

1655 Canal Street

Long Beach, CA 90813

Scope of the certificate is limited to the  
"Fields of Testing"  
which accompany this Certificate.

Continued accredited status depends on successful completion of on-site inspection,  
proficiency testing studies, and payment of applicable fees.

This Certificate is granted in accordance with provisions of  
Section 100825, et seq. of the Health and Safety Code.

Certificate No.: 1568

Expiration Date: 7/31/2017

Effective Date: 8/1/2015

Sacramento, California  
subject to forfeiture or revocation

Christine Sotelo, Chief  
Environmental Laboratory Accreditation Program

EDMUND G. BROWN JR.  
GOVERNOR

19

MATTHEW RODRIGUEZ  
SECRETARY FOR  
ENVIRONMENTAL PROTECTION

## State Water Resources Control Board

July 22, 2015

Arturo M. Dayoan  
Crosby & Overton Analytical Laboratory  
1610 West 17th Street  
Long Beach, CA 90813

Dear Arturo M. Dayoan:

Certificate No. 1568

This is to advise you that the laboratory named above has been certified as an environmental testing laboratory pursuant to the provisions of the Health and Safety Code (HSC), Division 101, Part 1, Chapter 4, Section 100825, *et seq.*

The Fields of Testing for which this laboratory has been certified are indicated on the enclosed "Fields of Testing" list. The certificate shall remain in effect until **July 31, 2017** unless it is revoked. This certificate is subject to an annual fee as determined by HSC 100860.1(a).

The application for renewal of this certificate must be received before the expiration date of this certificate to remain in force according to the HSC 100845(a).

Any changes in laboratory location or structural alterations, which may affect adversely the quality of analysis in the Fields of Testing for which this laboratory has been granted a certificate, require prior notification. Notification is also required for changes in ownership or laboratory director within 30 days of the change (HSC, Section 100845(b) and (d)).

Your continued cooperation with the above requirements is essential for maintaining the high quality of the data produced by environmental laboratories certified by the State of California.

For general inquiries, please contact our office at the phone number or email address listed below. For specific concerns regarding your application, please call (916) 341-5175 or email [Christine.Sotelo@waterboards.ca.gov](mailto:Christine.Sotelo@waterboards.ca.gov).

Sincerely,

A handwritten signature in cursive script, appearing to read "Christine Sotelo".

Christine Sotelo, Chief  
Environmental Laboratory Accreditation Program

**State Water Resources Control Board**  
Division of Drinking Water

July 22, 2015

Arturo M. Dayoan  
Crosby & Overton Analytical Laboratory  
1610 West 17<sup>th</sup> Street  
Long Beach, CA 90813

Dear Mr. Dayoan:

Certificate No. 1568

The California Environmental Laboratory Accreditation Program (ELAP) has received and conducted a review of your laboratory's Renewal Application received on May 15, 2015.

We have found your application complete and acceptable. Based on your last site visit and latest Performance Evaluation sample results, ELAP has granted your request for certification.

Please be reminded that the State must be notified in writing within 30 days of any change in location, physical structures of the laboratory, ownership, and principal analysts or laboratory director.

Should you have any questions or require further assistance, please call (818) 551-2043 or email [Angela.Anand@waterboards.ca.gov](mailto:Angela.Anand@waterboards.ca.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Angela Anand".

# ACKNOWLEDGEMENT OF NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

INDUSTRIAL WASTEWATER DISCHARGE PERMIT  
REQUIREMENT LIST

The approval and issuance of this permit is being made conditionally and subject to Crosby & Overton Incorporated being in compliance with all indicated items on this list and accompanying data sheet. Satisfactory evidence of compliance with these conditions should be supplied to the Districts where requested. Satisfactory evidence will consist of a minimum of written notification signed by a responsible company official, and in some cases may involve the submission of additional drawings and data, or verification by a Districts representative. Failure to comply with all items on the requirement list, including all deadlines specified, invalidates this approval and issuance. Invalidation of this permit will result in Crosby & Overton Incorporated being deemed to be operating without a valid permit and subject to immediate discontinuance of sewer services for industrial operations. Per Section 401 of the Districts' Wastewater Ordinance, this permit is not transferable.

FACILITY NAME	Crosby & Overton Incorporated
FACILITY ID	1422530
PERMIT NUMBER	001317
DATE OF APPROVAL	February 19, 2016
DATE OF EXPIRATION	February 18, 2021

1. Acceptable and Unacceptable Wastewater

Types of Wastewater That May Be Accepted and May not Be Accepted for Treatment

a) Wastes accepted for treatment may not exceed the Districts' Phase I total cyanide limitation of 10 mg/l.

b) The permittee is prohibited from accepting any wastes containing explosive materials or radioactive materials. In addition, wastes accepted for on-site treatment must not contain detectable quantities of organochlorinated pesticides (including DDT, DDE, DDD, chlordane, trans-nonachlor, oxychlordane, heptachlor, heptachlor epoxide, endrin, aldrin, dieldrin, hexachlorocyclohexane, and toxaphene) or polychlorinated biphenyls (PCBs). The permittee is also not allowed to accept any concentrated waste organic solvent for on-site treatment.

c) The permittee shall not accept and treat any wastes regulated under Subpart A (Metals Treatment and Recovery Subcategory) of the Centralized Waste Treatment Category (40 CFR 437). The definitions for metal-bearing wastes can be found in 40 CFR 437.2.

d) Prior to acceptance of any new type of commercial or industrial wastes not yet approved by the Districts, the permittee must demonstrate its capability of treating such new wastestreams by running a testing program. The Districts will review the performance data of the evaluation runs prior to determining whether Crosby & Overton, Inc. will be allowed to accept the new wastes proposed for on-site treatment. The identity of each new waste type will dictate whether additional effluent limitations apply.

RE: Recent CHWMEG, Inc. Facility Review Conducted at Crosby & Overton, Inc.

Dear Raquel:

On behalf of CHWMEG, Inc.'s (CHWMEG) over 250 member enterprises, representing over 725 individual companies, I want to extend appreciation to you and the other staff at your facility for your support of the CHWMEG 2013 Facility Review Program (FRP) review recently completed at your facility. The member companies recognize and appreciate the level of effort required to support the facility review (see enclosed Membership List).

Your efforts enabled the interested CHWMEG member companies, which represent customers or potential customers of your facility, the benefit of receiving the information necessary for their individual contractor/vendor management programs. Further, your support of the CHWMEG process reduces the need to support multiple customer reviews from these individual companies.

CHWMEG continuously strives to improve its practices and procedures. CHWMEG's goals include streamlining the facility review processes and reducing costs. It is hoped that CHWMEG's efforts also benefit the reviewed facility. At your convenience, please complete the enclosed survey, and return it using the enclosed self-addressed, stamped envelope or by fax to +1 (586) 461-1856. Members of CHWMEG will review your feedback.

Also, please find enclosed a plaque recognizing the efforts of you and your colleagues in supporting the 2012 CHWMEG FRP review of your facility. You are encouraged to display this as you deem appropriate.

If you have any questions regarding the CHWMEG program, or wish to refer any of your customers or potential customers to CHWMEG, please contact Jeff Sacre, CHWMEG Administrator, at +1 (412) 826-3056 or via email at [jeff\\_sacre@chwmegeg.org](mailto:jeff_sacre@chwmegeg.org). You can also contact CHWMEG's Asia-Pacific Director, Mr. David Chng, at +65 9237 8445 (email: [asia-pacific@chwmegeg.org](mailto:asia-pacific@chwmegeg.org)) or European Director, Mr. Randy Mott, at +48 607 339 012 (email: [europe@chwmegeg.org](mailto:europe@chwmegeg.org)).

Information about CHWMEG is always available on the internet at <http://www.chwmegeg.org>.

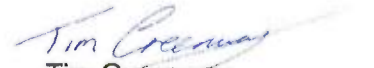

Thank you again for your support and feedback.

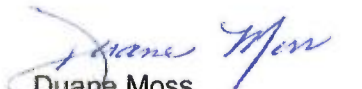

Sincerely,

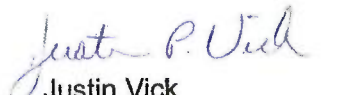

**The 2013 CHWMEG, Inc. Board of Directors**
